

ENDPOINT PRIVILEGE MANAGEMENT FOR WINDOWS: EPO EDITION

UNIFY LEAST PRIVILEGE AND ENDPOINT SECURITY TO CONDENSE THE THREAT SURFACE

Centralize Privilege Policy & Reporting

Benefit from a centralized, holistic view of privileged event policy and reporting.

Enforce Least Privilege

Remove admin rights and enforce least privilege to keep users secure and productive.

Unify Secure Management of all Endpoints

Protect endpoints against malware, external attackers, insiders, and even misconfigurations and other errors— all from one platform.

Endpoint Privilege Management for Windows: ePO Edition is the ideal management platform for enterprises that want to leverage their existing McAfee ePolicy Orchestrator (ePO) infrastructure. This solution provides single console visibility of privilege management for Windows alongside your other security products.

Technical Benefits

- **Full integration with McAfee ePO:** McAfee ePO is a strategic platform for managing security in the organization. The team responsible for McAfee ePO typically manages privilege management for Windows endpoints as well. The Endpoint Privilege Management for Windows ePO extension provides the familiar user experience of ePO, allowing for a quick start and a streamlined workflow.
- **Simple set up:** Easy deployment into your existing McAfee ePO infrastructure means a straightforward implementation process with no new hardware required.
- **Precise targeting:** Deliver Endpoint Privilege Management for Windows policy with McAfee ePO's flexible Policy Assignment features for precise targeting.
- **Intelligent reports and dashboards:** Extensive auditing and reporting is delivered within the McAfee ePO Dashboards & Reports. Seamless integration with an external database provides additional scalability and enhanced reporting functionality.
- **End-to-end management in ePO:** Endpoint Privilege Management for Windows agent deployment, policy definition and assignment, and reporting are all managed from the McAfee ePO web interface.
- **Endpoint protection:** Choose the McAfee ePO Edition for management of endpoints from one central policy editor and web interface.

BeyondTrust is an accredited McAfee Security Innovation Alliance (SIA) partner, and was named the SIA Partner of the Year for both 2018 and 2017.

Our McAfee ePO integration is certified by McAfee to ensure your Endpoint Privilege Management deployment using ePO is well supported by both McAfee and BeyondTrust.

Technical specification

- Supported on McAfee ePO Server 5.1/5.3/5.9/5.10 and ePO supported agents
- Leverages McAfee agent secure communications
- Endpoint Privilege Management for Windows agents managed on Microsoft Windows (7,8, and 10)
- Optional BeyondTrust Insights database supported on MSFT SQL Server 2008 or later

BUSINESS BENEFITS

Tap into McAfee products with Data Exchange Layer (DXL)

Make informed policy changes with McAfee Threat Intelligence Exchange (TIE) reputation data and easy access to VirusTotal information.

Transition seamlessly from analysis to policy change

Integration from BeyondTrust for policy modification means you can make swift decisions and use behavioral insights to accelerate deployment.

Facilitate Endpoint Privilege Management for Windows client management outside corporate network

McAfee ePO Agent Handlers facilitate management outside of the corporate network so that remote workers have the latest policy and their use of privilege is always in view.

Leverage existing investment in technology, people, and processes

Plugs directly into an already deployed and managed environment with the ability to segment roles and responsibilities natively. Events can also be added directly to the McAfee ESM tool for further, automated analysis.

BeyondTrust is the worldwide leader in Privileged Access Management, offering the most seamless approach to preventing privilege-related breaches. Our extensible platform empowers organizations to easily scale privilege security as threats evolve across endpoint, server, cloud, DevOps, and network device environments. We are trusted by 20,000 customers.
